Another Quick Recycling Tip in our series:

ON TRAILERS...
Let's say that you have a load of yard waste that you need to haul to the Recycling Center that exceeds the cargo capacity of your vehicle - can you use a trailer to get it there? The answer is: yes and no! Non-commercial trailers, like the one in this photo, are fine. However, commercial trailers - such as those from a rental company, are not allowed. Know before you rent!
