Date : December 23, 2016

Ho! Ho! Ho! What a lovely gift for Darien just in time for Christmas! Tree Conservancy of Darien was able to swiftly coordinate the delivery of 30 trees generously given by [Planters Choice Nursery](#) for planting in town.

In line with the goal of replacing trees lost to storms, disease and construction, and with funds available through donations to the nonprofit, TCD will use these trees to replant at the Town Hall ball field, Pear Tree Beach and other locations.

In addition to contributing to the aesthetics of town property, the new trees will add to shade, drainage and help create a healthy ecosystem for generations to come.

Here are several pictures of the new trees being delivered (and some plantings), from TCD on Facebook:

TCD would like to extend sincere gratitude to Planters Choice and all others who contribute time, effort, materials and funds to help in its mission: to preserve and enhance the tree and forest resources for the benefit of the community, its health and its quality of life.

About Tree Conservancy of Darien

Tree Conservancy of Darien is dedicated to preserving and enhancing the tree and forest resources of Darien for the benefit of the community, its health and its quality of life. Established in 2010, TCD has planted 335 trees in Darien.

Its goals are to educate the community about the value of trees and their care, replace Darien trees lost to disease, construction and storms, maintain the care of new and existing trees and build partnerships with town organizations.

For more information or to donate to Tree Conservancy of Darien, visit the [organization's website](#) or email them at info@treeconservancyofdarien.org
