**Date :** January 29, 2018

Sometime between November 2017 and last week, several pieces of jewelry valued at \$4,400 went missing from a nightstand in a home on [Crane Road](#) in the Long Neck section of town.

A complainant went to police at 10:39 a.m., Thursday, Jan. 25 to report the missing jewelry.

Because of the long period between when the jewelry was last seen and when the owner realized it was missing, the complainant couldn't identify any suspects to police, who are continuing to investigate.
