Teacher Ann Novotnik's second graders at Holmes Elementary School had a unique opportunity to share what they were learning.

Titled "An Afternoon of Math," students and their parents worked together at a variety of math-related stations. The event was intended to highlight how students can move from concrete experiences to pictorial representations to abstract thinking, according to Holmes Principal Paula Bleakley.

"Math celebrations are a wonderful way for teachers and students to share the focus of their work — both process and content — with parents and other important adults in our children's lives," said Bleakley. "This

shared understanding allows for consistent and shared support of student learning both at home and at school.”

Among staff pitching in to help were K-5 Math and Science Director Linda Johnson and Math Specialist Melissa Labroschiano.

“It was an exciting afternoon for our second graders,” said Bleakley.
