## **Read Me First Before Posting Events**

**Author :** David Gurliacci

**Date :** April 16, 2016

You're invited to add an event to Darienite.com's events calendar ([here](#)) for any event likely to be of interest to Darien readers. (Register first, and you can go back later and edit the event.)

Have a tag sale? Does your organization have an event coming? Submit your event here. Event announcements you submit will be approved by the editor before appearing later on the events calendar. If you need the event to appear quickly, email [Dave@Darienite.com](mailto:Dave@Darienite.com) to notify us — although we're not promising to get the event posted quickly or even see the email fast enough (it's always best to post events early).

If you register for the website, you can go back to the event page later and edit it. [You can register here](#) — just give us a user name and an email address.

After you're registered, [add your event here](#).
