Date : February 12, 2016

Aquarion Water Co. announced Friday that water on various streets in town (see list, below) may discolor water and create low water pressure for short periods this coming Tuesday through Friday.

Here's [the announcement](#):

Aquarion will be performing fire flow tests between 9 a.m. and 3:30 p.m. on Tuesday, Feb. 16 thru Friday, Feb. 19, weather permitting.

The test will last approximately 15 to 20 minutes, and during this time you may experience low water

pressure or mild discoloration of the water.

Any residual discoloration will be addressed quickly.

During this period, we ask that you check your water before using it and, if it is discolored, wait until the water is clear. You may also want to store tap water in the refrigerator for drinking and cooking in the event your water is discolored.

For any questions or issues, please call our Customer Service Department at 800-732-9678 during our regular business hours, Monday thru Friday from 8am to 5:30pm.
