Date : July 13, 2021

The area's soggy weather has created ground conditions that are soggy enough to cause a postponement of Darien's Fireworks to Thursday, July 22, a town official said.

Jami Gore, program supervisor for the town Parks & Recreation Department, asked to confirm a tip about the possible postponement, confirmed that it was taking place, and an announcement was about to come out.

Other than the one-week postponement, Gore said other details about the event are expected to be the same.

Darienite.com will have further information about the event as it is released.

The planned Weed Beach Festive Night, originally scheduled for July 2, then postponed to Saturday, July 3, had to be cancelled because of continued wet weather, part of the weeks of unusually wet weather in the area.
