Date : January 4, 2019

Mark your calendars! The Darien Pollinator Pathway will be hosting a wine and cheese evening at the Gardener's Center and Florist on Jan, 23. The event is free and open to everyone.

It will feature two classes by the Gardener's Center: a native seed planting class presented by Kris Barker, and a class in floral design using native flowers presented by Kate O'Keefe.

Doors open at 6 p.m. and the first class starts at 6.30 p.m. There will also be a raffle, with prizes including a magnificent bottle of wine donated by Sipstirs and a landscaping consultation with Kate O'Keefe.

The Darien Pollinator Pathway is a collaboration of residents from various groups in town, including the Darien Nature Center, the Garden Club of Darien, the Gardener's Center and Florist and the Darien Library.

The goal of the collaboration is to provide habitat and nutrition on both public and private properties across Darien to birds, bees, butterflies and other pollinating creatures that move pollen among plants allowing for new growth.
