The details of these cases have been reviewed with the Darien Health Department and our District Medical Advisor. Contact tracing has been completed and it has been determined eighty-six (86) additional school community members are considered close contacts and will require a 10-day quarantine from the date of last contact.

**Additionally, the District has just been apprised of a sixth (6) case at the high school. Consequently, to allow for contract tracing to occur, the high school will be remote learning for all students tomorrow, Thursday, March 25. The high school principal will send additional details about the schedule.**
