Date : August 12, 2019

Starting Tuesday, Aug. 13 and continuing through the month, Eversource will be conducting aerial inspections of high-voltage electrical equipment on rights of way throughout Connecticut.

— *an announcement from Eversource*

This semiannual inspection is an important part of the company's ongoing commitment to provide reliable electric service.

The work involves the use of a blue and silver helicopter (tail # N1431W) equipped with heat-sensing, infrared scanning technology which can detect potential equipment problems before they occur.

The aerial inspections continue through Aug. 31, weather permitting. Flights will take place from 8 a.m. and 4 p.m.

The helicopter will be flying in all towns along the Long Island shoreline from Greenwich to Westport, as well as Wilton, Ridgefield and Redding, but not New Canaan, Fairfield or Bridgeport.

Here's the full list of towns the helicopter will be flying over and inspecting:
