Darien police, who had previously announced that five vehicles had been stolen last week, and a total of 11 entered, on Tuesday provided details about those incidents and three more over the weekend.

All of the vehicles appear to have been unlocked, and the stolen ones also had keys inside.

In almost all cases, the thefts seem to have occurred overnight. Darien police included a statement again reminding residents to lock their cars, and provided some additional information about the problem of unlocked vehicles (published here at the bottom of the article).

## **Police Statement**

With the summer in full swing, it appears that Darien has once again become the target of vehicle burglars and thieves.

The Darien Police remain committed to investigating these crimes as they occur, but in the interest of safety, we'd prefer that Darien wasn't seen as a "soft target" for perpetrators.

In addition to the theft of physical items, the Darien Police see many identity-theft and fraud issues stemming from the taking of personal items in these incidents.

The theft of a person's identity can cause a ripple effect of crime that is often times difficult to stop and/or measure.

Things such as identification cards, licenses, bank cards, checks, bills, personal papers, etc. can be used for a large number of financial crimes.

As always we remind citizens to:

—Lock your vehicle at all times

—Active vehicle security system

—Don't store primary or secondary keys in the vehicle

—Don't store valuable items in your vehicle ? If suspicious activity or persons are observed, call the Darien Police as soon as possible

—Make sure any security camera systems you have installed in your home are in good working order and pointed in useful directions

—Take advantage of subscriptions offered by your vehicle manufacturer that "connect" the vehicle (i.e.- On Star)

These simple steps can protect you from dealing with a missing vehicle, stolen personal property, missing cash, identity theft, bank fraud, and more. If you have any questions or concerns, please don't hesitate to
