Date : July 17, 2018

When Kirby and Company managers found a significant loss of goods for sale as they were conducting a semi-annual store inventory, they looked at video surveillance records.

That's when they saw on video a suspect concealing jewelry in a bag, then leaving the store at 1029 Post Road without paying. The theft occurred in the third week of June 2018, and it amounted to \$270 in stolen merchandise. Someone from the store contacted police on Wednesday, July 11.

Police are continuing to investigate the incident and said they would release no further information about it.
