A large window was smashed by rocks and a key fob was stolen from a desk at BMW of Darien sometime before 2:14 a.m. Wednesday, April 24, police said.

Darien police gave these further details of the incident:

Someone making a parts delivery in the wee hours saw broken windows on the south side of the reception area of the dealership at 140 Ledge Road and called police.

Officers who responded to the call found several rocks on the floor near the broken windows. They searched the building for burglars but found no one and no additional evidence.

Later it was determined that the only item known to be missing in the building was a key fob from one of the
