The exhibit, which runs now through Monday, July 29 also includes her new paintings on aluminum, reflecting her ongoing artistic journey where she explores new ideas and materials. Julliette, a creative thinker, is constantly looking at the world in different ways.

Her paintings are mysterious, inviting the viewer to engage their own imaginations to explore the images.

She says, "I love working on aluminum, because it enables the paint to be moved around in ways not possible on more traditional surfaces. Magic is created when intended outcomes develop into unplanned random occurrences."

Julliette returned to painting, her lifetime passion, following a highly successful career as a senior executive in finance. London-born with an international background, her artistic themes are influenced by her extensive travels.

She paints in her studios in Stamford, CT and the French Riviera. Her works are held by collectors in the U.S. and internationally. Most recently, a body of her work was purchased for the new Stamford Hospital. She has exhibited extensively locally and is represented by galleries in the U.S. and France.

Now in its 41st year, the Loft Artists Association is a non-profit organization dedicated to building connections within Fairfield County's visual arts community and introducing the general public to artists and their work. Their grassroots events attract thousands of visitors throughout the tri-state area.

*Silver Educational Center is open seven days a week from 9 a.m. to 4 p.m. Please note that we sometimes have previously scheduled programs in the gallery. Call ahead to ensure that the gallery is open for viewing. The Gallery phone number is 203.487-5264.*
