When employees came to work Wednesday, June 5 at one of the businesses on the ground level of a medical office building across the street from Spring Grove Cemetery, they found one a window had been pushed open and the screen removed, police said.

The window didn't seem to be damaged, "indicating that it was most likely left unlocked," a police announcement said.

Police were called at 8:10 a.m. to the building at 1500 Post Road. Although someone appears to have entered through the window, nothing seemed to be missing or out of place in the office, police were told.
