Teens and parents, along with anyone concerned about vaping, are invited to come to a panel presentation about vaping, which has become an enormous public health issue, this Wednesday evening, Oct. 24, at Darien Library.

The event, from 7 to 9 p.m. in the Community Room (called the "Auditorium" in the Health Department poster, below), is organized by the Darien and Stamford health departments and co-sponsored by the library.

"Join us for a candid conversation about the health risks of e-cigarettes and Juuling," said [an announcement](#) on the Darien Library website. "This program will provide a starting point for parents to continue conversations with their teens."

"Teens are invited to attend with their parents."
